| <p>授業の概要と目標</p> <p>1 年次に学んだ文法と語彙を復習しながら、ワンランク上の読解力や表現力を身につけることを目標とします。前期はやさしい会話表現を繰り返し聞いて音読します。様々な形の練習により語彙を増やして、身の回りの事柄をドイツ語で表現してみましょう。後期は文法の練習と読解力をつけることにも力点を置いて進めます。異文化について学んだりさらに調べたりする機会も持ちたいと思います。ドイツの音楽やビデオなどを取り入れながら進めるつもりです。</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                  |                          |   |        |       |   |      |        |   |            |       |   |       |       |   |      |         |   |          |          |   |      |           |   |            |            |   |         |                |    |      |          |    |           |     |    |      |                |    |      |      |    |               |  |    |       |  |    |          |            |    |       |  |    |            |           |    |        |     |    |           |    |    |            |      |    |              |    |    |        |             |    |                   |      |    |           |     |    |      |       |    |    |  |    |           |  |    |           |  |    |       |  |
